**June 25, July 9, 16, 23, 30,
Aug. 6, 13, 20 {NO CLASS July 2}**

ADULT ART CLASS: Open to beginners, intermediates and experienced artists, this class is an opportunity to receive instruction, tighten technique and style in the medium of the student's choice and explore the challenge of the beginner or experienced artist. Lessons are created for each artist's medium and level, options range from drawing to pastels to painting in watercolors, acrylics or oils. Theory and application through specific skill-honing exercises will introduce you to a great class to help you unwind and get your hand in art.

FULL DAY ART CAMP: A Day full of fun and excitement! You will love the broad range of art that goes on here in a week...leather sculpture, drawing, pastels, oils, cartoon, watercolors, collage, printmaking and more. Fast paced, educational and mostly, lots of fun! You will have a gallery worth of art after this experience.

ACRYLIC PAINTING: Learn about color mixing/pigments, palette set up, composition, additives & techniques, working from still life/photo, use glazes and more while we create gems of paintings!

ALL ANIMALS/WILD ANIMALS: Let your wild side out in clay, acrylics or watercolors – jungle animals, pet portraits, zoo animals or whatever animal you like! Learn how to make body shapes, realistic fur, patterning and natural habitats. You also have the opportunity to bring in a photo of your own pet to use as a reference.

ARCHITECTURAL DESIGN: Create interiors and exteriors in simple but true manners. Perspective and sketching will be taught to harness ideas, then final work in the design and presentation arena. Develop spatial capacity and explore imagination, but then discover, can it be built?

ART AND SCIENCE: Experiment with color/chromatography, make/use your own paints, recreate cave paintings, dissect a flower and do botanical drawing, create optical illusions with pointillism, change of state sculpture, colorful crystals, color wheels and MUCH MORE!

BUILD THIS!: How do you make a kaleidoscope of colors? Have you ever made a copper mobile? A picture frame? A clock?? Well, bring your ideas, and desire to learn to build, along with your creative hands, and let's get going!

CARTOONING/MANGA/ANIME: And the next great cartoon artist is... Find out how many people it takes to make a comic book, how to tag, ink, write and make storyboards! Character creation is yours as you make your own cartoon cel and create a manga animation wheel. Manga, Animation, Traditional, Dragon and Fairy incorporation – it's only limited by your child's creativity, and they are never limited!

CLAY: Sculpture the fun way!! Explore the techniques for armatures and creating sculpture. Make abstract pieces as well as realistic animals and even a cartoon character of your design! Learn the properties of polymer clay and the use of sculpting tools. So much to do!

CONTEMP/ABSTRACT/GRAFFITI: Very creative camp that incorporates all these types of art with lots of the creativity to use their own style. We'll use a variety of mediums incl. paints, markets, collage, and more. For the kid who doesn't yet appreciate classical training this is IT!

DRAWING: Whether from A-Z, Hyper Realistic, Drawing Realistically or Sketching Class, we offer the premise that From Black and White to Color, Everyone CAN Draw! Line, tone, value, texture, tone and shape - all of this will be presented in a way that allows every artist to wind up on a much higher level than they started. Practice drawing what you really see. We will work from still life reference to gain experience in drawing as well as perspective and proportion, gradually working our way from black and white to color.

DRAW AND PAINT: This class explores the transition from drawing into painting by beginning the session with drawing theory and applying it to painting through gridding, pre-sketching, or mixing the two mediums. Kids will draw and paint from both photos and still life, mastering observation, perspective, color theory and composition. Everyone works at their own skill level and moves up from there.

DRAW IN COLOR: Learn how and why color adds a whole other dimension to drawing. You'll use Prismacolor pencils and inks to create dramatic and interesting color art with a flair for the unusual. Get to choose your own color palette, as wacky as you want!

FASHION DESIGN: Design your own collection! Learn the exciting ins and outs of the fashion industry while designing your own story boards and clothing. We'll work with different fabrics, color choices for your season, clothing palettes and illustration croquis. You will have an entire collection of designs to share with your friends...careful your mom doesn't want your clothes!! We will also make a fashion bag!

FINE ART FROLICS: Intro to art for the young set ages 4-7. Roll your sleeves up and make lots of art! We work in sculpture, acrylic painting, collage, drawing, cartoon, watercolors, printing and more. The basic rules are taught and reiterated to begin the understanding of how art is made and how the young artists can make art themselves. Very hands-on, educational and lots of fun! Focus on techniques and exploration.

GRAPHICS: With fast paced social media, we'll explore trends in art that support the 'quick' art hit. Using a variety of materials, the young artists will be presented with situations to solve, around creativity and their style. Posters, Subway/Bus art, T shirt art, lots more. VERY fun!

MASTER PAINTING: from Pop Art to Classic oils, Street Art to Impressionists, work in the style of the Masters. Very varied and fun!

MIXED MEDIA: This exciting class offers an overview of a broad range of mediums – charcoal/pencil drawing, clay sculpture, papermaking, Watercolor techniques, and painting, monoprints, acrylic or oil color theory and paintings, stone sculpture, or oil/chalk pastels. The basic rules of art are reinforced with the expectation that the young artists will hone their understanding and practice of these varied mediums.

MOSAICS: Learn the techniques and process of using tesserae to create mosaic mural work. Your kids can learn and create art while they study Mosaic Art with a modern twist as they learn about Greek and Roman mosaics, culture, history, etc. Tesserae to be used will be glazed ceramic, glass and stone. Work on your Illuminated Letter (initial) and a theme of your choice. Multi Culture Travel the world, create Egyptian sculptures, "red figure" Greek pottery, Roman mosaic, Asian batik, African masks, Italian frescoes.

PAINT BIG!: Working really LARGE - learn about proportions, how to grid up, techniques of scaling up. You will work on an acrylic painting the size of a table - this is going to be HUGE fun! Large choice of reference theme.

PORTFOLIO DEVELOPMENT: Get into the Art School of your choice! Portfolios require a broad variety of mediums and artwork. We have successfully mentored hundreds of high school students through this process. 12-20 pieces are necessary for submission; we take the artists through the different projects with deadlines and time management. Students will get individual attention for unique portfolio work. Please feel free to call to meet with us for a complimentary consult about existing work or planning for portfolio work. You will not find this kind of program in school, so your kids need some outside guidance!

TEXTILES: FUN!!! Learn the techniques and process of batik/silk/theorem/moli painting. While studying the history and use of these textiles, you will design your own pattern and create batik cloth, A masterful silk painting will be created after practicing salt, over-dyeing, etc.

VARIED PAINTING: Explore application/techniques of watercolors, acrylics, gouache and tempera paints. Kids will interpret both photos and still life in creating their paintings; creativity, imaginative use of the medium, composition, and color palette are focal points.

WATERCOLORS/COLOR THEORY: The best first type of painting a young artist can learn! Everything else is so much easier. The correct techniques and process for watercolor painting are taught and practiced while developing beautiful work from still life and photo reference. Color theory, color mixing and brush technique are also taught so young artists can continue their love for watercolor long after camp ends.

WIRE SCULPTURE: Draw with it, sculpt with it, bend, twist and shape it, form it and solder it...so much fun to work with wire! Wall hangings, wire drawings and more.
